## Professional Summary

Forward-thinking Senior Android Developer and Team Lead with over 7 years of experience designing, building, and maintaining Android applications using Kotlin, MVVM, and Clean Architecture. Leads cross-functional teams with proven success in mentoring developers, improving delivery efficiency, and transitioning projects to open-source, cost-efficient solutions. Passionate about clean, maintainable code and driving innovation through collaboration.

## Core Skills

Kotlin • Coroutines & Flow • ViewModel • LiveData • Room • Dagger Hilt • Retrofit • Firebase / Supabase • Git & Bitbucket • Manual QA & Debugging • Agile Development • Android Studio • Gradle

## Professional Experience

- **Team Lead / Senior Android Developer** | Trackerteer Web Dev Corporation  
*Clark Freeport Zone, Pampanga | June 2018 – Present*
  - Leading a multidisciplinary mobile development team composed of 2 Android Developers, 2 iOS Developers, 2 QA Engineers, and 1 Backend Developer for projects including:
    - Designed and implemented AI face recognition for StaffBanana's time tracker app, combining hands-on coding with leadership.
    - Led migration of Firebase Realtime Chat to Supabase, reducing long-term costs while maintaining real-time capabilities.
    - Replaced Google Maps with an open-source routing solution, eliminating recurring map fees and improving control over routing features.
    - Mentored and promoted a QA engineer into a full Android Developer after identifying strong potential.
    - Improved sprint planning and clarified requirements to enhance delivery accuracy and reduce confusion.
    - Achieved all major migrations and mentorship milestones within the first year of becoming Team Lead.

- **Programmer / Android Developer / Back End Developer / Graphic Designer** | LegalEx

*San Fernando, Pampanga | Aug 2017 – May 2018*

- Built and maintained LegalEx's Android platform connecting clients with lawyers.
- Managed local databases and implemented secure communication between clients and lawyers.
- Designed and maintained user-friendly mobile UI components.
- VoIP implementation

- **IT Intern** | Angeles Beach Club Hotel

*Angeles City, Pampanga | Apr 2016 – Jul 2016*

- Assisted in networking, system maintenance, and troubleshooting computer hardware/software issues.

## Education

Bachelor of Science in Information Technology | Pampanga State Agricultural University (2013 – 2017)

Thesis: Android Health Care Disease Prevention Game (Candidate for Best Thesis)

## Projects

- **RockyGo** - Malaysian food delivery app.
- **StaffBanana** - Time tracker for employees.
- **CheckAVehicle** - Vehicle tracking app and more.
- **FarmAssistant** - Tree data entry and a terrain surveying app.
- **Paint Delivery App** (2021–Present): Full-featured delivery management system.
- **MeetApp** (2021–Present): Location tracking and real-time chat application.
- **Health Care Game** (2017): Android game promoting disease prevention awareness.
